

GIK-1700

Globalstar Installation Kit

The **GIK-1700** provides convenient, in-vehicle and in-vessel operation of the **Globalstar GSP-1700** mobile satellite phone (sold separately) by connecting it to an easily mountable, external antenna. The **GIK-1700** offers flexibility and hands-free usability when traveling and working in areas where cellular coverage is unavailable.

BENEFITS

- **Productivity** - Conduct business on the road, on the water or in the field without needing to rely on cell coverage
- **Convenience** - Hands-free phone calls from your vehicle and vessel while your **GSP-1700** mobile phone battery charges
- **Speed** - Utilize Globalstar's industry leading data speeds (**4X faster than the closest competitor**) to send/receive emails and download files when connected to the **Globalstar 9600** Wi-Fi data hotspot (sold separately)

*GSP-1700 sold separately
GPH-1700 Privacy Handset
Sold Separately*
