

TRANSKIT-1700

Transportable Car Kit

The **TRANSKIT-1700** does everything that the Globalstar Installation Kit (**GIK-1700**) does - provides in-vehicle and in-vessel operation of the **Globalstar GSP-1700** mobile satellite phone (sold separately) - with the added bonus of being able to take the entire kit with you when you exit your vehicle or vessel.

BENEFITS

- **Productivity** - Conduct business on the road, on the water or in the field without needing to rely on cell coverage
- **Convenience** - Hands-free phone calls from your vehicle and vessel while your **GSP-1700** mobile phone battery charges or, if needed, take the bag kit wherever you need it and utilize the privacy handset
- **Speed** - Utilize Globalstar's industry leading data speeds (**4X faster than the closest competitor**) to send/receive emails and download files when connected to the **Globalstar 9600** Wi-Fi data hotspot (sold separately)
- **Durability** - Small, tough and lightweight carry bag holds all contents of the **GIK-1700**

GSP-1700 sold separately
