

# Eureka Navigation Solutions AG

Globalstar Value Added Reseller

## Company Presentation

According to the claim, CONNECTING COMPETENCE, Eureka AG was founded in 2002 by a network of experienced IT specialists and leaders. In 2005 Eureka Navigation Solutions AG was formed as a subsidiary. Based on a modular platform, Eureka Navigation Solutions AG develops products and systems in the field of navigation and wireless networks. Currently, the main focus is the development of **autonomous seamless** tracking and tracing systems, software solutions for Location Based Services and power efficient **sensor networks**. The phrase **seamless** in this context means positioning in both indoor and outdoor environments without any user intervention via GPS and Galileo as well as seamless communication from wireless personal area networks (WPANs) utilizing various RF technologies and GSM/GPRS/UMTS or SatCom. Subject to the area of application, **autonomous** systems are usually maintenance-free. This makes them operable over a longer period of time and excludes the need to change or charge the internal power supply. Eureka currently focuses its business on automotive, aerospace and logistics industries.
