

GEOCALISE

Globalstar Value Added Reseller

Company Presentation

GEOCALISE is a French company with a long track record in developing tracking and geolocalisation solutions over GPS and offers access to customers in ASP mode for several years via its mapping platform. GEOCALISE has been developing its expertise in two different market types:

Mass market: elderly, children, pets, sports, adventures, leisure outdoor sector (mountain and marine vessels)

Professional market: Tracking and monitoring of assets such as parcels, pallets, containers, vehicles and construction trucks.

For more than a year, GEOCALISE has become one of the major geolocalisation providers in France. GEOCALISE is a platform LBS (Location Based Service) which makes it possible to quickly develop solutions to supervise, locate and follow on mobile entities equipped with beacons (Gsm or Gsm/Gps) via interfaces (Web, wap, imode, sms, vocal) in order to manage subscribers, beacons etc.
