

## Bluechip Technologies Ltd t/a Guardian24

Guardian24 is widely considered to be the UK and Ireland's market leader for lone worker protection and holds the accolade as the outright winner of the IFSEC Lone Working 'Product of the Year' Award. Our lone worker systems can be used via Android, BlackBerry, iPhone, Symbian and Windows Mobile smartphones, mobile phone, tablet, or specialist Lone Worker Device.

In essence the Guardian24 service provides lone workers with two key features: the ability to log visits and the ability to raise an alarm at the touch of a button.

Over 400 public and private sector organisations use Guardian24 and the service protects over 40,000 individual employees, throughout the UK and Ireland. Our customers include Councils, NHS Trusts, Housing Associations, educational institutions, charities and construction companies, to name just a few.
