

MOBIL INFORMATION SYSTEMS UK LTD

Globalstar Value Added Reseller

Company Presentation

Mobil-I & the MS Track© brand has grown a Worldwide client base since 2000, covering The United Kingdom, Republic of Ireland, Australia, South Africa & America.

Through the MS Track© brand we provide cutting edge, cost effective, easy to use Fleet Management, Telemetry & Messaging Solutions designed with a unique understanding of communication technologies.

MS Track Pro is an Advanced Fleet Management and Tracking Solution specifically designed to deliver an easy to use, but highly scalable solution. From Single Desktop installations to multi site wide area access MS Track Pro is able to deliver a fully scalable enterprise solution.

MS Track Web is a scaled-down, easy to use Fleet Management and Tracking Solution, delivered via the Worldwide Web. Designed for smaller vehicle fleets, or for customers who require separate access from MS Track Pro, MS Track Web gives customers all the information they require to take control of their vehicles without the need for any software to be installed.

- BETTER VEHICLE UTILISATION
- IMPROVED DRIVER MANAGEMENT
- INCREASED LEVELS OF CUSTOMER SERVICE
- GREATER VEHICLE AND DRIVER SECURITY
