

Q E O S WHO ARE WE?

Qeos is a company specialising in geolocation and the management of logistic resources.

With a 10-year strong experience in the business, our software desk offers a great efficiency and an ever-increasing comfort in the carrying on of the everyday tasks, for instance:

- **detailed planning** and **follow-up** of tours and of works
- **management** of the fleet of vehicles
- **communication in real time** with the drivers and other personnel members

Our 10-year presence on the market has enabled us to prove our value and **to stand out** with individual and reliable **quality solutions**.

With the optimisation of companies' management in view, we also propose **Winbook** as management and accountancy software.

Always eager to strengthen our expertise and to prove the strong points of our company especially through our involvement with **Microsoft Partner Network**, we are now **certified Partners**

Q E O S MADE-TO-MEASURE SERVICE

Always listening to our customers' needs in their extremely varied fields of occupation, we **target** their specific requests and **meet their concrete demands** through developing **reliable personalised solutions**.

Our trustworthy team of developers is always up to **new and latest technologies**. They develop ever-evolving reliable applications with on demand functionalities that our customers can intuitively **configure**.
